A SOCIAL INNOVATION INCUBATION LAB FOR EUROPE

TRANSITION

aims to **scale up 300 Social Innovations across Europe** and develop a **European Network of SI Incubators (ESIIN)**.

ACTIVITIES

London, Paris Region, the Basque Country, Milan, Lisbon, Ireland West: TRANSITION partners accompany lead innovators through **the Social Innovation Journey (SIJ)**, a **scaling up support methodology** focusing on the sequence of steps social innovators may go through acquiring the skills and capabilities they require to grow.

MISSION

We believe that by harnessing **the power of a larger network** we can ensure that successful local projects supported by a scaling centre can help address/‘bridge’ common social problems at a wider geographical level. Looking at the scaling up activities, ESIIN will act as a **“social innovation incubation lab”** where to generate and share **new evidence about the role and the impact of incubation in scaling up social innovation**.
