Website: <https://ruralvive.wordpress.com/>

Email: [ruralvive2015@gmail.com](mailto:ruralvive2015@gmail.com)

Tags: desertification; rural regeneration; agriculture

## TRANSITION

aims to scale up 300 Social Innovations across Europe and developing a European Network of SI Incubators (ESIIN).

London, Paris Region, the Basque Country, Milan, Lisbon, Ireland West: TRANSITION partners accompany lead innovators through the **Social Innovation Journey (SIJ)**, an **action format for social innovation incubation** focusing on the sequence of steps social innovators may go through acquiring the skills and capabilities they require to grow.

We believe that by harnessing **the power of a larger network** we can ensure that successful local projects supported by a scaling centre can help address/'bridge' common social problems at a wider geographical level.

Looking at the scaling up activities, ESIIN will act as a "social innovation incubation lab" where to generate and share **new evidence about the role and the impact of incubation in scaling up social innovation.**
